DIARY NOTES

DD/S *W*

4 October 1962

25X1C8c

2. Jim Garrison talked to me briefly about the volume of supplies being sent to Saigon and the fact that he was not sure yet from where the money was coming. I told him to get this straightened out without delay and to let me know if he had any difficulty.

25X1A9a

3. Matt Baird came to see me regarding the following items:

a. Matt advised me that [REDACTED] on behalf of the Deputy Director (Plans), has requested a management training course for branch chiefs. I told Matt that, while I thought management courses generally were better if they had a mixture from all components of the Agency, I nevertheless applauded this request as one means of getting DD/P more interested in management training. (I will be interested in pursuing this course and seeing what the results appear to be.)

b. Matt discussed with me a proposal to transfer [REDACTED] shop from the Intelligence School to the Operations School. (I have approved.)

c. I discussed with Matt "OTR's worst day" growing out of the fairly well fouled-up Intelligence Products Exhibit. We have agreed that it is a great deal of trouble to have this exhibit in this building and that it should be discontinued at least until we can see whether there is any requirement for it.

4. Emmett Echols talked to me about GEHA's proposal to provide insurance for dental work. He left with me a paper which I think should be thoroughly considered and possibly debated before we go any further with this matter.

25X1A9a 5. Emmett also talked to me about an extension for [REDACTED] I told 25X1A9a  
him, as I had told [REDACTED] that while I had no objection to [REDACTED] 25X1A9a  
being extended I did not want to use any "credit" with the Army in order to  
25X1A9a obtain any extension. I also felt that this matter ought to be checked out at the  
Pentagon by someone other than [REDACTED] (Emmett Echols is to find out  
what the appropriate level should be.)

\* \* \* \* \*

25X1A9a 6. Emmett Echols advised me that [REDACTED] is not working out in the 25X1A9a  
Office of Personnel, and he is at somewhat of a loss to know what to do in his  
case. I told him that I would try to find a job for Dick. (I have asked [REDACTED] 25X1A9a  
[REDACTED] to look into this.)

25X1A6a 25X1A9a 7. Jim Garrison talked to me about my proposal to send [REDACTED] to 25X1A9a  
[REDACTED] He recommended that we send [REDACTED] and put [REDACTED] 25X1A9a  
in Doug's job as Chief of the Supply Division. I told him that I would think this  
over.

25X1A9a 8. Matt Baird has proposed that the A&E Staff of the Office of Training be  
abolished and that its functions and personnel be divided between the Medical  
Staff and Technical Services Division. Generally speaking, the Medical Staff  
would assume assessment responsibilities for all staff employees, and TSD  
would assume these responsibilities for agents. I have discussed this briefly  
with [REDACTED] who thought that it made sense, and also with John  
Tietjen. John was suspicious as to why Matt was making these proposals, and  
he was also reluctant to see formalized any responsibility which TSD may have  
in this field. I asked him to discuss the proposal with Matt and [REDACTED] 25X1A9a  
and then to come back to me. However, I emphasized to him that, insofar as I  
was concerned, I wanted only one psychological services unit in DD/S and that  
the only problem remaining to be solved was the relationship between the  
Psychiatric Staff of the Medical Staff and TSD.
